2016 Volunteer Opportunities and Contacts

CSHP places value on the input members provide in the development of policies, programs and services for our state affiliate organization. One avenue for such input is participation in standing, advisory and ad hoc committees. CSHP is issuing a call for volunteers for these committees and provides each committee with specific charges to guide their work.

Participation in the work of the Society is a membership privilege. Those who are actively involved make decisions about the direction of the Society and the profession on other members' behalf. Also, participation is a networking opportunity, an excellent way to tap into the collective knowledge and experience of the CSHP community.
