

## 3<sup>rd</sup> Annual New England Residency Conference

**Day 1: Welcome 1:00 PM to 1:15 PM on May 26<sup>th</sup>**

Presentations will occur in two concurrent Zoom rooms.

Color Code: Day 1 Zoom Room 1, Day 1 Zoom Room 2, Day 2 Zoom 1, Day 2 Zoom2

First Name	Last Name	Afternoon Presentations May 26 <sup>th</sup>	Topic	Time
Indigo	Moss	Pharmacy Benefits Manager (PBM) disruption management	Administration/Leadership	1:15 – 2:15 PM
Kate	Didenko	Health System Evaluation of Pharmacy Benefit Management (PBM) Strategy	Administration/Leadership	1:15 – 2:15 PM
Neelesh	Agarwal	Implementing a Home Infusion Service in a Five-Hospital Health System	Administration/Leadership	1:15 – 2:15 PM
Bailey	Thayer	Developing an Employee Engagement Committee	Administration/Leadership	1:15 – 2:15 PM
Ama	Cobbinah	Characteristics of patient reported penicillin allergies in primary care	Ambulatory Care	1:15 – 2:15 PM
James	Ning	Home buprenorphine dose optimization for pain management in a hospital setting	Ambulatory Care	1:15 – 2:15 PM
Karishma	Patel	Impact of incorporating an ambulatory care pharmacist in the rheumatology setting to coordinate medication access (Poster)	Ambulatory Care	1:15 – 2:15 PM
Maia	Determan	Identifying barriers to the expansion of pharmacogenomics guided anti-platelet therapy: Insights from a five hospital health system	Pharmacogenomics	1:15 – 2:15 PM
Becca	Patterson	Assessment of clinical cost-saving opportunities for a health system's employee pharmacy benefits plan	Formulary/Drug Use Policy/ 340B	2:15 – 3:15 PM
Derrick	Amenyedior	Drug Purchasing Optimization in the hospital setting: Opportunities to segregate inventory	Formulary/Drug Use Policy/ 340B	2:15 – 3:15 PM
Mariam	Farah	Evaluation and Optimization of Patient Own Medication Usage	Formulary/Drug Use Policy/ 340B	2:15 – 3:15 PM
Niamh	O'Grady	Non-formulary and restricted medication workflow management at a five-hospital health system	Formulary/Drug Use Policy/ 340B	2:15 – 3:15 PM
Jason	Darmanin	The effects of an enhanced ordering pathway and of a nurse-driven insulin titration protocol on clinical outcomes in diabetic ketoacidosis	Medicine/Surgery	2:15 PM – 3:15 PM
Lauren	Bertocci	Assessment of the Brief Alcohol Withdrawal Scale (BAWS) on an internal medicine unit	Medicine/Surgery	2:15 PM – 3:15 PM
Ryan	Virgin	Evaluation of Inpatient Glycemic Control Pre- and Post-Implementation of a Hemoglobin A1c (HbA1c) Testing Protocol in a Small Community Hospital	Medicine/Surgery	2:15 PM – 3:15 PM
Katie	Konieczny	The effect of non-benzodiazepine hypnotics on motor vehicle crashes among older adults	Medicine/Surgery	2:15 PM – 3:15 PM
Kate	McCann	The Rate of Hospital Readmissions in Patients with CHF Before and After Implementation of Pharmacist-Driven Transitions of Care Interventions in a Small Community Hospital Setting	Transitions of Care	3:15 PM – 4:15 PM
Veronika	Latawiec	Incidence of potentially inappropriate direct oral anticoagulation prescribing during the transition of care process	Transitions of Care	3:15 PM – 4:15 PM
Jessica	Daniell	Pharmacist adult medical emergency response at a five-hospital health system	Hematology/Critical Care	3:15 PM – 4:15 PM
June	Tran	Clevidipine versus Nicardipine as Initial Intravenous Antihypertensive Agent for Hypertensive Emergencies	Hematology/Critical Care	3:15 PM – 4:15 PM
Marrim Zaahid	Qureshi	Implementation of pharmacist-driven antibiotic time out program and its effect on antibiotic prescribing in patients admitted with suspected community acquired pneumonia and urinary tract infections	Infectious Disease	3:15 PM – 4:15 PM
Nicole	Kalver	Predictors of COVID-19 vaccine third dose non-adherence in immunocompromised patients admitted to skilled nursing homes	Infectious Disease	3:15 PM – 4:15 PM
Justin	Ma	Reducing time to optimal antimicrobial therapy for bloodstream infections due to Gram positive cocci in chains using rapid diagnostics paired with antimicrobial stewardship efforts	Infectious Disease	3:15 PM – 4:15 PM
Elaine	Liu	Impact of pharmacist intervention on antibiotic prescribing at hospital discharge for community-acquired pneumonia, urinary tract infection, and skin and soft tissue infection	Infectious Disease	3:15 PM – 4:15 PM

Day 2: Welcome 9:00 AM to 9:15 AM on May 27<sup>th</sup>

First Name	Last Name	Morning Presentations May 27 <sup>th</sup>	Topic	Time
Lava	Kareem	Specialty Clinic Integrated Clinical Service Model – Digestive Health and Rheumatology Medication Management Clinics	Specialty Pharmacy	9:15 AM – 10:15 AM
Raisah	Salhab	Establishment of a Pharmacist-Run Clinic with Vaccination Services Based on a Specialty Clinic Integrated Service Model	Specialty Pharmacy	9:15 AM – 10:15 AM
Francesca	Picone	Pharmacist and technician workflow evaluation for patients enrolled in the Medication Management Clinic	Specialty Pharmacy	9:15 AM – 10:15 AM
Seeon	Lee	An evaluation of prior authorizations for dermatology medications: Current processes of an integrated health-system’s specialty pharmacy and opportunities for improvement	Specialty Pharmacy	9:15 AM – 10:15 AM
Nick	DeFilippo	Optimizing clotting factor product workflow in the acute care setting across a large, academic health system	Hematology/Critical Care	9:15 AM – 10:15 AM
Kelly	Oldziej	Evaluation and Optimization of STAT Medication Data Analysis	Hematology/Critical Care	9:15 AM – 10:15 AM
Abigail	Lopienski	Process optimization for ambulatory and perioperative clotting factor ordering across a large academic health system	Hematology/Critical Care	9:15 AM – 10:15 AM
Nicole	Stepak	Evaluation of the safety of intravenous iron formulations across a five hospital health system	Hematology/Critical Care	9:15 AM – 10:15 AM
Samuel	Breiner	High-risk discharge medication reconciliation: optimization & standardization across a 5 hospital health system	Transitions of Care	10:15 AM – 11:15 AM
Kalie	Berry	Standardization of admission medication history documentation across a five-hospital health system	Transitions of Care	10:15 AM – 11:15 AM
Robin	Cullen	Pharmacist-driven warfarin to direct-acting oral anticoagulant conversion	Transitions of Care	10:15 AM – 11:15 AM
Chelsey	Quinlan	Evaluation of a pharmacist-led integrated transition of care model to prevent hospital admissions or emergency department visits for hyperglycemia or hypoglycemia in an accountable care organization (poster)	Transitions of Care	10:15 AM – 11:15 AM
Tiffany	Zheng	Impact of prophylactic bowel regimens in the intensive care unit for patients on opioid infusions	Hematology/Critical Care	10:15 AM – 11:15 AM
Alyssa	Santos	Evaluation of midodrine use on clinical outcomes in septic shock	Hematology/Critical Care	10:15 AM – 11:15 AM
Viva	Isaragumpot	Impact of early administration of four-factor prothrombin complex concentrate on bleed expansion in patients with traumatic intracranial hemorrhage on oral anticoagulation	Hematology/Critical Care	10:15 AM – 11:15 AM
Abigail	Wolff	Evaluation of tissue plasminogen activator product utilization across a health system	Hematology/Critical Care	10:15 AM – 11:15 AM
Megan	Pantos	Optimization of the emergency department culture review process through enhancement of the electronic medical record	Infectious Disease	11:15 AM – 11:45 PM
Sarah	Cruz	Implementation of a standardized process for outpatient COVID-19 treatments at a Veterans Affairs (VA) hospital	Infectious Disease	11:15 AM – 11:45 PM
Kendall	Szulimowski	Prevention of medication-related patient falls	Medication Safety/Operations	11:15 AM – 12:15 PM
Nick	Rioux	Inpatient REMS Compliance Strategies	Medication Safety/Operations	11:15 AM – 12:15 PM
Blerim	Dema	Implementation of new enteral connectors for administration of enteral feeds and medication at a five-hospital healthcare system	Medication Safety/Operations	11:15 AM – 12:15 PM
Dianne	Techwei	Standardization of Ambulatory Care Practice at a Five-Hospital Health System	Medication Safety/Operations	11:15 AM – 12:15 PM
